

Sport Aviation Safety

This program is meant to familiarize you with the aspects of certification and operation for Experimental Amateur built, Experimental Light Sport aircraft (ESLA) and Special Light Sport aircraft (SLSA). We will also look at case studies of accidents to learn about the cautions of not getting proper transition training and instruction prior to operating, as well as maintenance and construction considerations.

Directions: Please see map.
50 Seats under tent.

A message from the National FAASTeam Manager

Over 136,600 pilots earned WINGS credits last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!
